SUMMARY

IT Engineer with 3+ years of experience managing IT infrastructure, networking, fuel management systems, POS operations, automation, and enterprise support across 70+ fuel stations in KSA. Skilled in Windows Server environments, FortiGate firewalls, CCTV, and AWS (EC2, S3, IAM, VPC), while maintaining minimal downtime through proactive support. Currently contributing to operational excellence at Reben Petroleum, KSA.

EXPERIENCE

IT Operations Engineer

Jul 2024 - Present

Masaken Al-Majdal Petroleum Services (REBEN) - Riyadh, Saudi Arabia

- Ensured uninterrupted IT operations across 70+ fuel stations through proactive support and monitoring.
- Optimized FMS, POS, and automation systems to reduce downtime and improve operational efficiency.
- Maintained security infrastructure including CCTV, FortiGate firewalls, and Windows Servers.
- Deployed and upgraded LAN/WAN networks, operating systems, and retail technology.
- Coordinated vendors (ALITCO, GVR, Fusion), remote troubleshooting, and quarterly technical inspections.
- Governed IT assets, IoT devices, technical documentation, and compliance reporting.

Desktop Support Engineer

Aug 2023 - Jul 2024

Tech Mahindra - Noida, India

- Delivered L1/L2 technical support for enterprise users across Windows environments.
- Configured, upgraded, and troubleshoot Windows 7–11 systems and peripherals.
- Diagnosed LAN/Wi-Fi, TCP/IP, DHCP, DNS, and network connectivity issues to minimize user downtime.
- Performed remote support, patch management, and Citrix Virtual Apps troubleshooting via LogMeIn.
- Managed ServiceNow tickets, VPN access, backups, user accounts, and IP phones with SLA compliance.

Networking Intern

2023

Jetking Tech Lab - New Delhi, India

- Assisted in deploying Windows systems and configuring network devices.
- Troubleshoot hardware and software issues and maintained laboratory equipment.

PROJECTS

Reben Website: Designed and built a company website to showcase Reben Petroleum's services.

Diagram Automation: Developed an automated web-based solution for generating station diagrams.

Fuel Sales Calculator: Built an automated fuel sales reporting tool with OCR, voice input, and Excel/PDF export.

SKILLS

Cloud Platforms: AWS (EC2, S3, IAM, VPC), Azure (AD, VNet, NSG, Storage), Cloud Migration & Security

Networking: CCNA, Routing Protocols (RIP, OSPF, BGP), VLAN, DNS, DHCP, NAT, VPN, FortiGate Firewall

IT Support & Service Mgmt: ServiceNow, Office 365, Citrix Virtual Apps, LogMeIn, AnyDesk, TeamViewer

Fuel Systems: FMS, POS Devices, CCTV, IoT, Digital Signage, Civil Defense Compliance

Automation: IT Automation, Web Development, Backup & Restore, Scripting & Diagramming.

CERTIFICATIONS & EDUCATION

Master in Cloud Computing - Jetking, New Delhi

Mar - Nov 2022

B.Tech (CSE) - Mansarovar Global University, Bhopal

May 2019 - Apr 2023
